

**Made by Huntsmans exclusively for Grass Concrete Ltd the “Binwall” system is often described as a giant version of a well known childrens building block.**

Easily installed by dry build placement they are ideal for use in the quarry / recycling and similar industries where a heavy duty retaining/ pushing wall is required to stand up to the rigours of loading shovels and other mechanical loading machinery.

The larger units measure (LxWx H) 1500mm x 750mm x 400mm and weigh approximately one tonne each.

Also available with flat tops for coping or texture finish to face for landscaping or complete with lifting eyes.

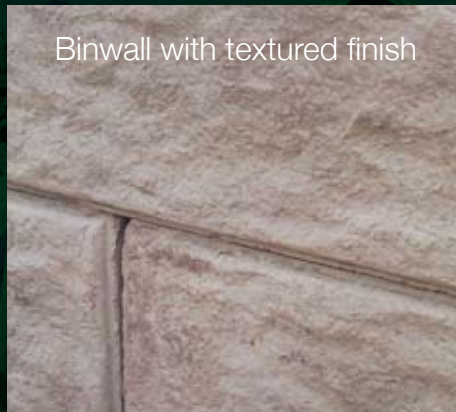

Gras Concrete Ltd also provide a supply and build facility as well as delivered or ex works options.
