

ATLAS WALLING PROJECT PACKS

Have you ever wanted to build that small garden retaining wall or support wall for the new conservatory and had to purchase more stone than required just to get the right mix?

Huntsmans Atlas project packs can solve that problem. Produced in handy packs sizes of 6.4m² for coursed walling and 3.2m² for random walling they are an ideal blend of different stones sizes designed to give you that perfect natural stone look.

Why settle for less when you can have the real McCoy?

Available either as split or rustic in the lighter Cotswold shade or the darker Old Cotswold Atlas walling which has been produced in the heart of the Cotswolds for in excess of 30 years.

Also available are 7N/mm² standard dense blocks to complement the above if building a double skinned wall. Available individually or in standard 7.2m² packs.

All products can be delivered on our new crane offload facility or via local builders merchants.

ATLAS WALLING PROJECT PACKS

These packs have been specifically designed for smaller projects where several sizes of blocks are required for a **Random or Coursed Laying Pattern.**

Standard Project Packs for Random laying patterns contain 3.035 sq mtrs and for Coursed laying patterns contain 6.48 sq mtrs of walling stone in either Split or Rustic and are available in either Cotswold or Old Cotswold colours.

Each pack contains the following sizes:

Random Laying Pattern

40 no	65 x 215
24 no	65 x 290
16 no	140 x 215
24 no	140 x 290
4 no	215 x 215

Coursed Laying Pattern

32 no	65 x 215
24 no	65 x 290
32 no	90 x 215
24 no	90 x 290
32 no	115 x 215
24 no	115 x 290
32 no	140 x 215
24 no	140 x 290

Each pack is shrink wrapped onto a pallet and the total pack weights are approximately 570 kgs for Random pattern & 1.20 tonnes for Coursed pattern, variations in pack sizes can be produced in half or double sized packs on application.
