

AGGREGATES

Huntsmans has a long tradition of supplying aggregates to the construction industry over a wide area covering Gloucestershire, Worcestershire, Herefordshire, Wiltshire, Warwickshire and Oxfordshire. The company operates both crushed rock and sand and gravel quarries.

CRUSHED ROCK

Crushed limestone comes from the company's quarry at Naunton, near Stow-on-the-Wold which produces a range consisting of:

- Clean aggregates for construction, drainage and concrete.
- Sub-base for roads and car parks
- General fills for construction
- Filter media for drainage
- Pipe beddings for pipelines
- Washed chippings for drives, paths and gardens
- Washed sands for concrete products and paving
- Milled lime for agriculture & concrete products
- Block for armour or decorative.

SAND AND GRAVEL

Sand and gravel comes from the company's quarry at Bishops Cleeve. The following grades are available:

- Washed building sand
- Washed concrete sand for screeding and block paving
- Concrete mixture
- Washed gravel for construction, drainage and gardens.
