

**Huntsmans is a well known locally run Cotswold quarrying business offering an excellent individual service. We have over 60 years experience in the production of aggregates and we now complement this service with concrete supplies.**

Our concrete operation goes hand in hand with the quarry business and improves the range of products and services we can offer to local customers. We supply predominately within a 15-mile radius of Stow-on-the-Wold. The concrete is third party quality assured (QSRMC).

Customers can collect their own concrete or have it delivered by Huntsmans' vehicles. Appropriately, another Cotswold company, Mix-UK of Tetbury, has supplied the new plant, which has an output of 60m<sup>3</sup> per hour. The state-of-the-art technology includes provision for recycling of water, using tanks supplied by Oil Tank Supplies of Moreton-in-Marsh.

Because we are a small company, we do not use a distant call centre and so have been able to maintain personal contact with customers.
