

HUNTSMANS

EQUESTRIAN PRODUCTS

Huntsmans operates at the heart of an area famed for its equestrian activities. As a result, its high quality drainage aggregates have become the first choice for racecourses, all-weather gallops and for indoor and outdoor ménages.

Huntsmans offers a range of aggregates ideal for the varying drainage needs of the equestrian industry.

The company produces crushed rock, sand and gravel ranging from 150 mm down to 6mm single size. As with all Huntsmans products, our drivers pride themselves on delivering to the tightest of schedules and to the most difficult of locations.

Our aggregates have been extensively used in:

- All-weather gallops
- Racecourses such as Cheltenham, Stratford and Warwick
- Indoor and outdoor ménages
- Exercise tracks
- Horse-walkers.

Major contracts have included racing establishments in the Cotswolds, and all-weather facilities for trainers over a much wider area.
