

HUNTSMANS

NATURAL COTSWOLD WALLING AND PAVING

Cotswold stone is known throughout the world as one of the most beautiful and durable of all building materials. Huntsmans traditional slates and walling stone bring you the timeless beauty and warm colouring of a stone laid down 160 million years ago.

WALLING

The stone used for Huntsmans walling is hand-selected from the different beds in our Naunton quarry in order to offer our customers the unique variation of finish that makes Cotswold stone so special. Walling is available in two colours:

- Classic – the world-famous honey cream colour
- Premier - a buff, darker and more weathered appearance.

The stone can be delivered in small or large loads.

PAVING

Paving in Cotswold stone brings a natural warmth to your garden on the gloomiest of winter days. The same hand-selection but with a random or sawn finish, means that our customers are assured of a quality product.
